PRODUCT CHARACTERISTICS		Asgrow® AG24X7 brand is a mid g	roup II Roundup Ready 2 Xtend™
Plant Description		, , , , , , , , , , , , , , , , , , , ,	of agronomic conditions. This product ncluding resistance to soybean cyst
Relative Maturity	2.4	nematode, Phytophthora rot and brown stem rot.	

KFY	STRE	IGTHS
	JIKLI	101113

- Medium height plant with bushy canopy and very good standability
- SCN resistance
- Has shown excellent Phytophthora protection from the Rps3a gene

## **MANAGEMENT TIPS**

- Avoid soils prone to severe iron deficiency chlorosis
- Average to below average tolerance to white mold. Avoid fields with history of high white mold pressure

## **DISEASE RATINGS**

Soybean Cyst Nematode	R3	
PRR Resistance	Rps3a	
PRR Field Tolerance	9 8 7 6 5 4 3 2 1	
White Mold	9 8 7 6 5 4 3 2 1	
Brown Stem Rot	9 8 7 6 5 4 3 2 1	
Sudden Death Syndrome	9 8 7 6 5 4 3 2 1	
Southern Stem Canker	-	
Frogeye Leaf Spot	-

Commercialization is dependent on multiple factors, including successful conclusion of the regulatory process. The information presented herein is provided for educational purposes only, and is not and shall not be construed as an offer to sell, or a recommendation to use, any unregistered pesticide for any purpose whatsoever. It is a violation of federal law to promote or offer to sell an unregistered pesticide.

Monsanto Company is a member of Excellence Through Stewardship® (ETS). Monsanto products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Monsanto's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. This product has been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship.

Individual results may vary, and performance may vary from location to location and from year to year. This result may not be an indicator of results you may obtain as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible.

## ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS.

Roundup Ready 2 Xtend™ soybeans are not currently available for commercial sale or commercial planting. Dicamba herbicide is not currently approved for commercial in-crop use with Roundup Ready 2 Xtend soybeans and nothing herein is a promotion or an offer to sell dicamba herbicide for this use. It is a violation of federal law to promote or offer to sell an unregistered pesticide or a registered pesticide for an unregistered use. Commercialization is dependent on multiple factors, including successful conclusion of the regulatory process.

Roundup Ready® crops contain genes that confer tolerance to glyphosate, the active ingredient in Roundup® brand agricultural herbicides. Roundup® brand agricultural herbicides will kill crops that are not tolerant to glyphosate. agSeedSelect®, Asgrow and the A Design®, Asgrow®, Genuity Design®, Genuity®, Roundup Ready 2 Xtend<sup>™</sup>, Roundup Ready 2 Yield®, Roundup Ready®, and Roundup® are trademarks of Monsanto Technology LLC. ©2015 Monsanto Company.
